MANAGEMENT CONSULTANCY

KLDL International provides management consulting services to organizations which help improve performances in achieving organizational objectives. Clients draw upon our services for reasons, that include gaining external advice and accessing specialized expertise regarding concerns that call for additional oversight.

We provide organizational changes in management assistance, development of coaching skills, process analysis, technology implementation, strategy development and operational improvement services. We often apply

our proprietary methods and frameworks that guide with identifying problems which serve as the basis for recommending new views to more effective and efficient ways of performing tasks.

FOREIGN EXCHANGE PROGRAMS

Our foreign exchange programs provide students with an opportunity to study in a new country and experience a different culture and its people.

These programs provide opportunities that may not be available in the participant's home country, such as learning about the history and culture of other countries and meeting new people to enrich their personal development. International exchange programs are also effective to challenge students to develop a global perspective.

e-LEARNING

We create, deliver and manage expert led collaborative learning experiences at scale. We have combined the best of online learnings and in-classroom trainings to deliver a blended learning solution that effectively and efficiently addresses the priorities of the corporate environment.

Our first-to-market comprehensive corporate e-learning solutions will provide you with the technology and the learner support services you need to launch a successful e-learning programme.

TECHNOLOGY SERVICES

We help a client's organization design and implement technological services across various departments in an effort to help improve their business operations.

KLDL International helps businesses adapt to the latest technologies whether its implementing cutting-edge software, upgrading hardware, integrating different systems or providing staff training on new tools. This ensures businesses remain competitive and can leverage technology for growth and efficiency.

We also outsource information technology tasks to third party vendors monitoring the health and security of client's networks.

PROJECT MANAGEMENT

We manage and integrate the engineering, procurement and construction phases of a project. Clients often engage us with capital projects that are both large and complicated in challenging locations as their overall program managers.

Acting as the single point of contact, we consolidate all contractors and subcontractors from diverse cultures and backgrounds for such projects.

We focus on details as defining the basic requirements, aligning stakeholder teams and ensuring a disciplined approach for implementation.

OPEN & TAILORED COURSES

KLDL provides a range of courses designed to provide hands-on, interactive and practical learning experiences. Our courses are designed to meet the practical needs of both large and small organizations within their business environments. Our aim is to grow and improve the productivity of a client's workforce.

In our open programmes, we bring people from various industries and train them on infrastructure, procurement, public finance and good governance.

KLDL International also provides courses that are tailored to meet the specific needs of clients on request. These courses are streamlined to meet the immediate needs of clients in various industries. Understanding the requirements within the corporate environment, we work towards providing top quality courses tailored to suit these unique needs.
